

## Handy Reference for Mature Bull Elk Measurements and Trophy Identification

### ***Field Judging Rules to Identify a PY Bull Elk***

1. The inside spread must be 30" or greater between the main beams.
2. The bull must have at least five points on each antler to make the book and six points will greatly increase your odds.
3. Rear points should extend past the ribcage when the head is up and parallel with the rest of his body.
4. The antlers should extend at least as far above the head as that same distance between brisket to shoulder.

***Good Luck on your Elk Hunt!***
